In this tutorial, we'll show you how to make your own hoop earrings from start to finish. We'll cover everything from choosing the right materials to finishing your earrings with a professional-looking shine. So grab your wire and pliers, and let's get started!

### Materials

To make your own hoop earrings, you will need the following materials:

\* 20 gauge wire (copper, silver, or gold-filled) \* Round nose pliers \* Wire cutters \* Ruler or measuring tape \* Optional: Jump rings and earring hooks

## **Instructions**

1. Cut two pieces of wire, each measuring 6 inches long.
2. Bend one end of each wire into a loop using your round nose pliers.
3. Use your fingers to shape the loops into circles.
4. Thread one loop onto the other, and then use your round nose pliers to pinch the loops together and secure them.
5. Gently squeeze the hoops together until they are the desired size.
6. Trim any excess wire from the ends of the hoops.
7. If desired, attach jump rings and earring hooks to the hoops.

## **Tips**

\* For a more professional-looking finish, use a jeweler's saw to cut your wire instead of wire cutters. \* If you don't have a jeweler's saw, you can carefully cut your wire with a sharp pair of scissors. \* To make your hoops more durable, use a heavier gauge of wire. \* If you want your hoops to be a specific size, measure them with a ruler or measuring tape before you start bending them. \* Have fun and be creative! There are endless possibilities when it comes to making hoop earrings.

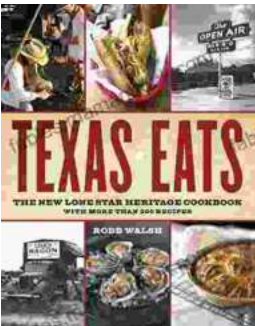

We hope you enjoyed this tutorial on how to make hoop earrings. With a little bit of practice, you'll be able to create beautiful, unique earrings that you can wear with pride. So get creative and have fun!
