The dancing dolphin motif was first introduced on the cover of Marvel Two-in-One #1, which was released in January 1974. The dolphin was drawn by artist John Buscema, and it was intended to be a symbol of the Thing's carefree and optimistic nature. The dolphin quickly became a popular symbol with readers, and it was soon adopted as the official logo of the Marvel Two-in-One series.

Over the years, the dancing dolphin logo underwent several changes. The most notable change occurred in 1979, when the dolphin was redesigned by artist George Perez. Perez's dolphin was more stylized and streamlined

than Buscema's original design, and it has remained the standard dolphin logo ever since.

In addition to the main dancing dolphin logo, Marvel Two-in-One also featured a number of other dolphin designs on its covers. These designs were often used to promote specific storylines or events in the series. For example, the cover of Marvel Two-in-One #50 featured a dolphin wearing a Santa Claus hat, to promote the series' Christmas special.

The dancing dolphin logo is one of the most iconic symbols in Marvel Comics history. It is a symbol of the Thing's enduring popularity, and it represents the spirit of adventure and optimism that has always been at the heart of the Marvel Two-in-One series.
